

- 📖 Most Research Infrastructure are constructed and operated by CAS in China (about 85%).
- 📖 There are **13 facilities** in operation which includes the Synchrotron Radiation Facilities, Collider, Astronomical Telescopes, Tokamak Facility , High Power Laser facility and so on.
- 📖 There are **11 facilities** in construction, which includes Strong Magnetic Facility, Spallation Neutron Source, Protein Research Facility, Neutrino Experimental Facility, Free Electron Laser and so on.
- 📖 There are about more **12 facilities** in preparing construction.

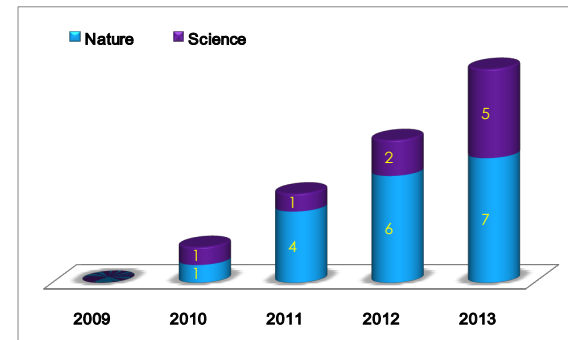

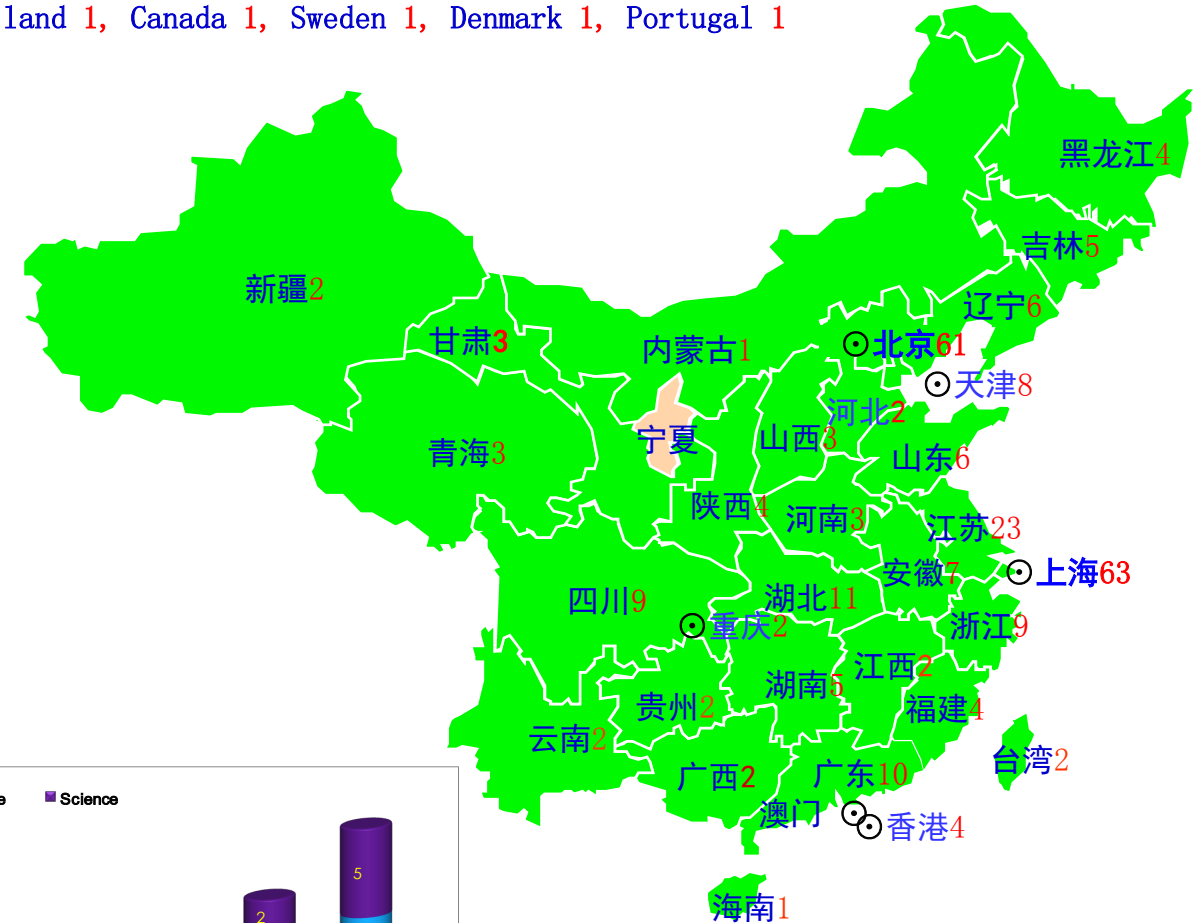

SSRF – (Shanghai Synchrotron Radiation Facility)

World Class (Top 4)
7 Beamlines (Phase-I)

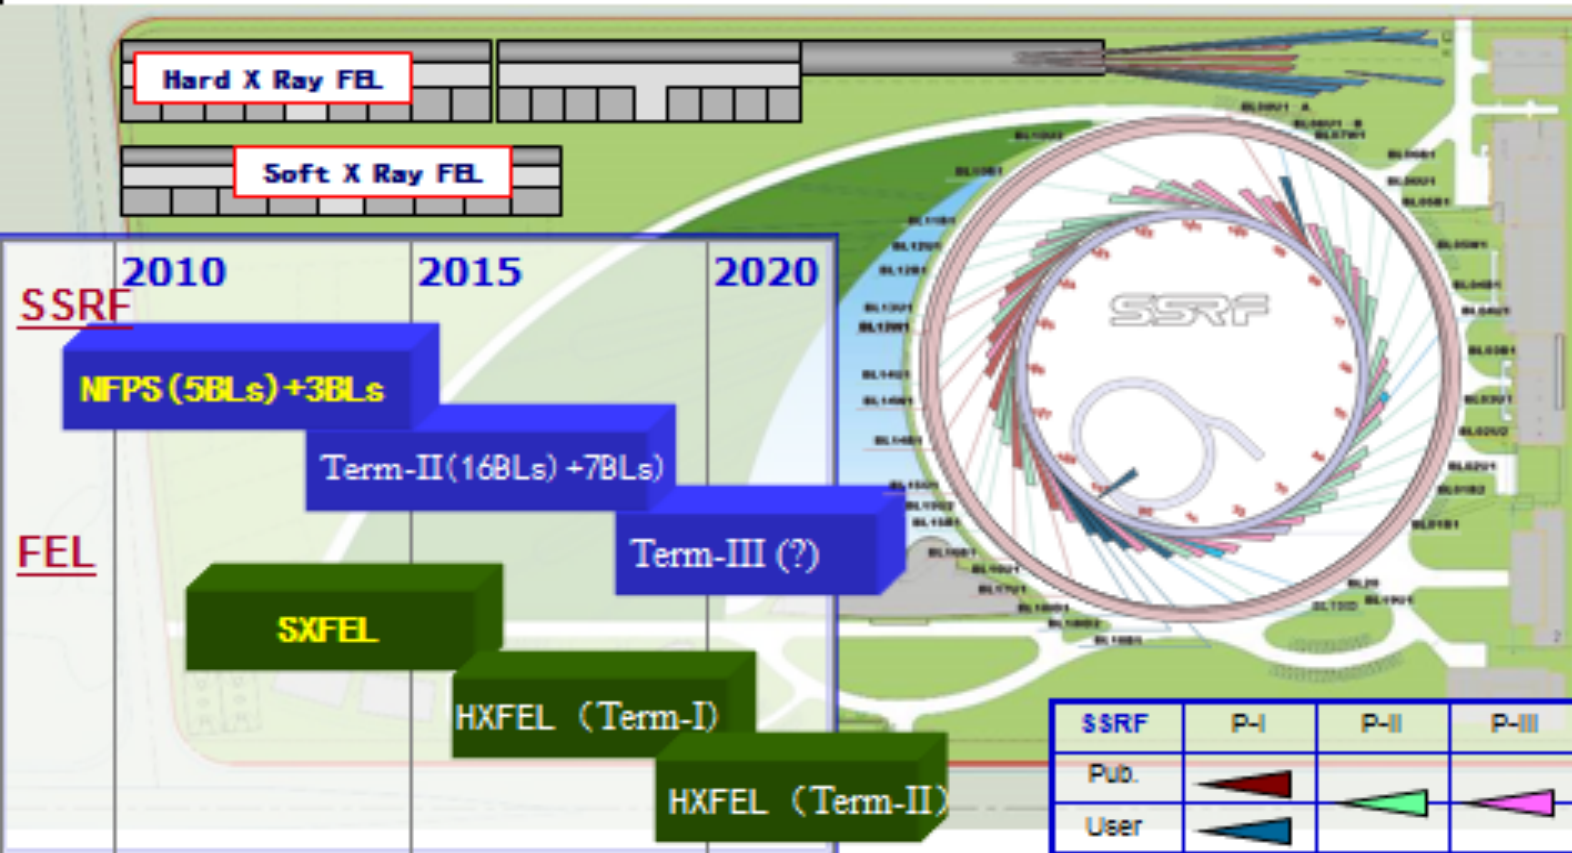

Users: 7039, User Visits: 17612

Korea 16, Japan 5, Singapore 3, US 3, Australia 2
Thailand 1, Canada 1, Sweden 1, Denmark 1, Portugal 1

SSRF Future

Shanghai Center for Photon Science

Scientific Aim Beamlines of SSRF
